In-Home Companion Care

## VETERAN'S AID AND ATTENDANCE PROGRAM

The Veteran's Administration offers a program to reimburse limited medical expenses incurred through in-home companion care services. This benefit is available to qualifying Veterans and their spouses, included surviving spouses of Veterans. The Aid and Attendance program is a great benefit to many of those who have served our country.

If a Veteran and/or the spouse are qualified, he/she may receive in-home companion care **with little to no out-of-pocket expenses**. The application process is often challenging to navigate for Veterans and their spouses. Fortunately, IC CARE has resources to assist in the application process that enable pre-qualified Veterans and spouses to begin receiving services soon after initial application and at no expense.

Here are some of the details of the VA Aid & Attendance Benefit:

- The Veteran must have been active for 90 days and during the following wartimes (he/she did not have to serve in a combat zone or overseas, only active for one day during these wartimes):

  - Korean conflict (June 27, 1950 – January 31, 1955)
